DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2,4,6,9,11, and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Holsclaw (USPN 4,877,400). Holsclaw discloses a pontic assembly (10b) for the manufacture of dental bridges, said assembly comprising: a pair of copings (12,14) defining a space therebetween; and an enforcement bar (32) connecting said copings (12,14) as shown in Figure 6. As to claims 2 and 9, the enforcement bar (32) is covered with wax (see column 4, lines 23-27). Regarding claims 4 and 11, the enforcement bar (32) is made of metal (see column 4, lines 11-12). To claim 6, Holsclaw further discloses the assembly further comprising at least one prefabricated pontic (12b,14b) having a groove (17b,19b) formed thereon for attachment to the enforcement bar (32). This also anticipates claim 21.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 3 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Holsclaw. Holsclaw discloses the claimed invention except for the enforcement bar being made

of plastic. It would have been obvious to one having ordinary skill in the art at the time the invention was made to manufacture the enforcement bar of plastic, since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. *In re Leshin*, 125 USPQ 416.

Allowable Subject Matter

Claims 5,7-8, and 12-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 15-20 and 22-24 are allowed.
